About ESH

- ESH is a non-profit institution for continuing education founded in 1986, to promote and facilitate access to state of the art and cutting-edge knowledge in haematology and related disciplines, at the European and International levels.
- ESH travels throughout all of Europe, North America, North Africa and the Middle East to organise conferences, training courses and laboratory workshops with a faculty of international experts selected for their scientific expertise and didactic skills.
- ESH also develops tools for continuing education produced in collaboration with international experts in the field. They are available to scientists and clinicians free of charge and they are used throughout the world to train haematologists.

www.esh.org

About ESH-Committees

- The ESH Executive Committee governs the School.
- It is comprised of the Founding President, the President, the Secretary, the Treasurer and the Executive Director.
- The Scientific Committee is made up of 27 distinguished international experts representing basic and clinical research, and clinical management, in all the sub-fields of haematology. Their role is to develop, evaluate and approve the School's ongoing and future activities.
- The Administrative Committee's role is to carry out the School's mission on a day-to-day basis and to report back to the Executive and Scientific Committees directly and via the Executive Director.

About ESH-Website

The screenshot displays the ESH website interface. At the top right, there are social media icons for Twitter, LinkedIn, and Facebook, along with links for 'Sign in' and 'Contact us'. Below these are navigation buttons for 'My favorites', 'More services', and 'ESH Virtual Network'. A search bar is also present.

The left sidebar contains a vertical menu with the following items:

- Home
- About ESH
- CME accreditation
- Conferences
- News
- Sponsors
- Online training
- Partners
- Publications
- Scholarships
- EU Projects

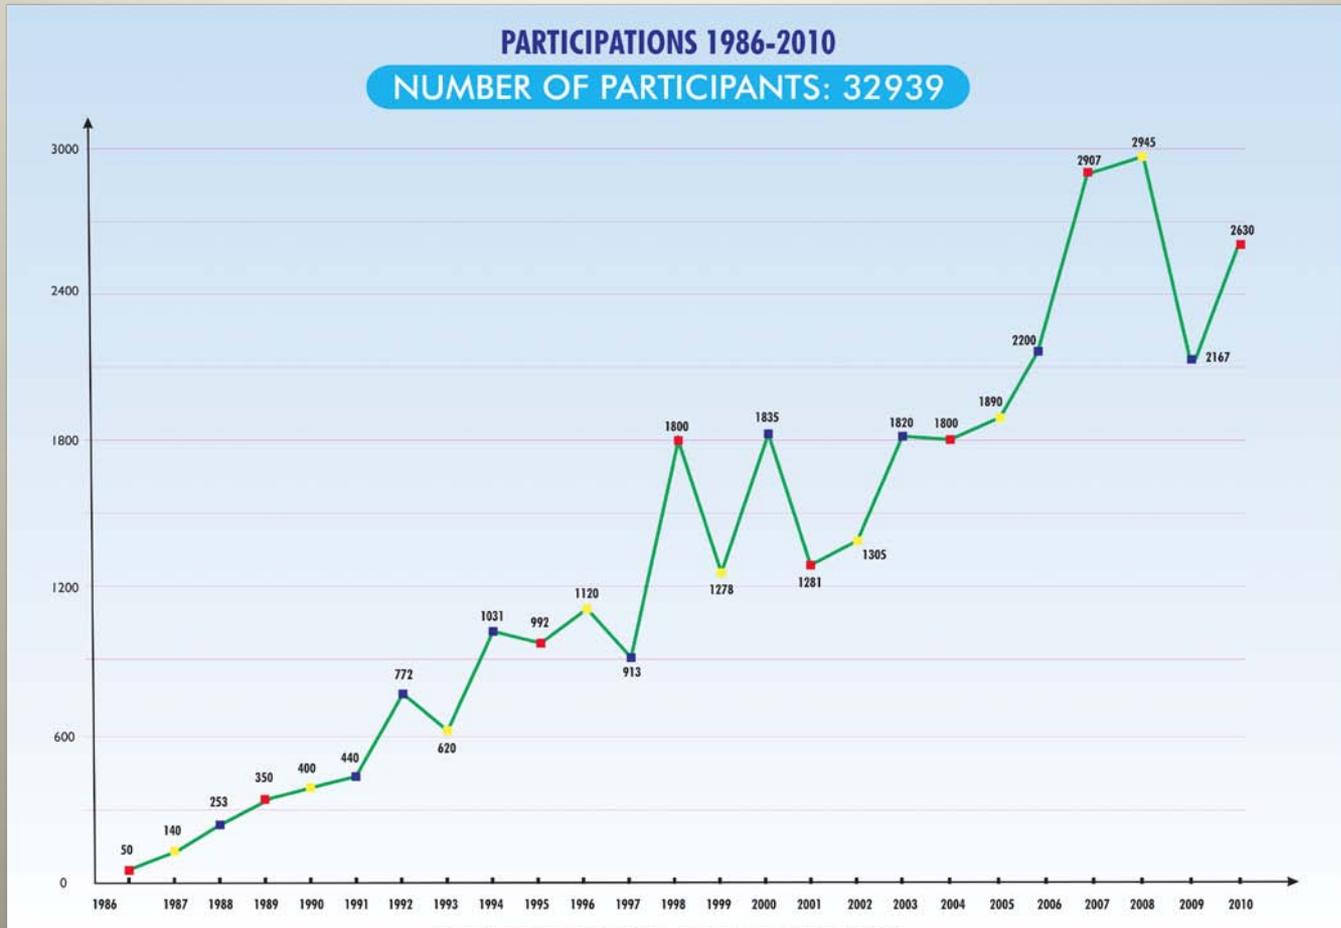

The main content area features a 'Conferences' section with a calendar. The current date is February 10, 2012, which is highlighted in red. The calendar shows dates for November and December 2011.

November 2011							December 2011							
S	M	T	W	T	F	S	S	M	T	W	T	F	S	
			1	2	3	4	5					1	2	3
6	7	8	9	10	11	12		4	5	6	7	8	9	10
13	14	15	16	17	18	19		11	12	13	14	15	16	17
20	21	22	23	24	25	26		18	19	20	21	22	23	24
27	28	29	30					25	26	27	28	29	30	31

Below the calendar is a link to 'View all Conferences'. To the right of the calendar is a featured event titled 'ESH-EHA Type I Tutorial Focus on MDS' with chairs Gina Zini and Shaun McCann. A 'Learn more' button is provided.

At the bottom, there is a 'Highlights' section with an 'All News' button and a collage of images, including a large 'fact' logo and a group of people.

About Eurocord-Ed

- Eurocord-Ed is an information, training and educational tool.
- It uses Blended Learning technique to provide a wide range of content in various formats. These include texts, webcasts, slide presentations, links to relevant websites, expert forums as well as a calendar of live events.
- The Eurocord-Ed website proposes learning and training pathways for the following groups:
 - Technicians
 - Scientists
 - Clinicians in Haematology and Immunology
 - Midwives, Obstetricians, Gynecologists
 - Healthcare administrators
 - Future Parents

Register Now for the FACT Cord Blood Workshop, Rome, October 2011

Organized in conjunction with the World Cord Blood Congress 2011. Register now for:

Cord Blood Inspection & Accreditation Workshop
Wednesday, October 26, 2011
Hotel Nazionale Rome
Rome
Italy

This FACT training workshop will take place in conjunction with the World Cord Blood Congress 2011, in Rome. Register for both events by clicking on 'More Information' below.

The workshop is designed to explain the requirements for FACT-NetCord accreditation of cord blood banks. FACT representatives will be in attendance to clarify the intent of the Cord Blood Standards, provide inspectors tips for conducting inspections, and assist banks in organizing and preparing their banks for the accreditation process.

Practical application of FACT requirements stimulates discussion about effective and ineffective inspection practices and preparation techniques.
