## **Haploidentical family donors with special respect to minors as donor**

This workshop was jointly organized by the EBMT Donor Outcome Committee and the WBMT.

The donor outcome committee of the EBMT together with the WBMT offered this workshop to raise awareness for haploidentical donors with a special focus on minors, serving as related donors for sibling or adult relatives. The workshop was focused on expert knowledge on haploidentical transplantation in children and adults, practical management of stem cell collection in minors and ethical considerations, and offered the participants the opportunity to interact with the speakers and discuss their current praxis. To reach these goals, the Faculty comprised a multidisciplinary team of experts in transplantations and in ethical questions.

### **Learning objective:**

- The aim of this virtual workshop was to discuss the current praxis and related ethical issues in haploidentical stem cell donation with a special focus on minors as donors. This workshop was intended to provide thoughts probably for preparation of an EBMT recommendations.

### **Speaker panel:**

#### **Coordinator:**

- **Professor Nina Worel**, Medical Director of the collection and processing facility, Department of Transfusion Medicine, Medical University Vienna, Austria

#### **Chairs:**

- **Nicolaus Kröger, MD**. Professor of Medicine, Director Department of Stem Cell Transplantation, University Hospital Hamburg-Eppendorf, Hamburg/Germany
- **Christian Chabannon, MD, Ph.D.** Head & Qualified person. Centre de Thérapie Cellulaire. Institut Paoli-Calmettes. Comprehensive Cancer Centre & Professor of Medicine in Cell Biology. Aix-Marseille Université School of Medicine Marseille. France

- **Christina Peters, MD.** Pediatrician, BMT Unit St. Anna Children's Hospital, Vienna, Austria

#### **Moderators:**

- **Jörg Halter, MD.** Hematology, University Hospital Basel, Switzerland
- **Andreas Buser, MD.** Direct of Transfusion Medicine, University Hospital Basel, Switzerland
- **Christina Peters, MD.** Pediatrician, BMT Unit St. Anna Children's Hospital, Vienna, Austria

#### **Speakers:**

- **Nicolaus Kröger, MD.** Professor of Medicine, Director Department of Stem Cell Transplantation, University Hospital Hamburg-Eppendorf, Hamburg/Germany
- **Professor Dr. Hildegard T. Greinix.** Medical University Graz, Division Head of the Division of Hematology, Austria
- **Miguel Abboud, MD.** Physician (pediatrician), Children's cancer center of Lebanon (CCCL)
- **Volker Witt, MD.** Physician (pediatrician), Head of the ICU and apheresis Unit, St. Anna Children's Hospital, Vienna, Austria.
- **Adriana Balduzzi, MD.** Physician (pediatrician), Clinica Pediatrica Università degli Studi di Milano Bicocca, Fondazione MBBM, Monza, Italy
- **Jörg Halter, MD.** Hematology, University Hospital Basel, Switzerland.
- **Luca Vago, MD.** Unit of Immunogenetics, Leukemia Genomics and Immunobiology, Division of Immunology, Transplantation and Infectious Disease, IRCCS San Raffaele Scientific Institute, Milano, Italy.
- **Michael Pulsipher, MD.** Hematology, Oncology and Blood and Marrow Transplantation, Professor of Pediatrics, Keck School of Medicine of USC Children's Hospital Los Angeles, Los Angeles, USA.
- **Galen Switzer, PhD,** Professor of Medicine and Psychiatry. Health services researcher, Psychiatry, and Clinical and Translational Science, Division of General Medicine, University of Pittsburgh, USA.
- **Professor Nina Worel,** Medical Director of the collection and processing facility, Department of Transfusion Medicine, Medical University Vienna, Austria

The video and slides are available for EBMT members on the e-learning platform.
