CV Passport

About the CV Passport

The CV Passport, in its two formats (Online and PDF), is primarily aimed at trainees in hematology, enabling you to view and exploit the revised and harmonized European Hematology Curriculum 2012, endorsed by 27 national societies of hematology.

The CV Online

The online CV Passport is a tool to enable you to monitor your progress in training using the European Hematology Curriculum and the recommended levels of competence next to each item.

If you are a member of EHA, you can start using the online CV Passport straightaway. If not, you simply need to register first via the CV Online registration button. There is no charge.

CV Passport PDF

Download the PDF version of the CV Passport for free here: [CV Passport PDF](#)

We would welcome all feedback on the CV Passport. Please email your comments and questions to education@ehaweb.org

CV Registration

CV Passport Online requires a login. No "MyEHA" account yet? Please register as an EHA Guest to get access (free of charge).

[View Eligibility Criteria for Initial Certification](#)

BMTCTM TEST CONTENT OUTLINE (TEST BLUEPRINT)

I. Basic Concepts and Indications for Transplantation — 10%

A. Basic concepts of transplantation

1. hematopoiesis
2. immunology
3. role of the caregiver
4. goals of therapy (e.g., graft vs. disease effect, hematologic/immune reconstitution after high dose chemotherapy/radiotherapy, marrow ablation)

B. Indications of transplantation

1. malignant disease
2. non-malignant disease (e.g., autoimmune, genetic, metabolic, hematologic)

II. Types of Transplants and Sources of Stem Cells — 8%

A. Types of transplants

1. autologous
2. allogeneic
3. other cellular therapies (e.g., donor lymphocyte infusion, dendritic cells)

B. Sources of stem cells

1. peripheral blood

V. Graft-Versus-Host Disease (GVHD) Prevention

Management — 15%

- A. Acute GVHD
- B. Chronic GVHD

VI. Post-Transplant Issues — 26%

- A. Infection prevention and management
- B. Hematologic complications (e.g., erythrocytopenia, leukopenia, thrombocytopenia)
- C. Hydration and electrolyte complications
- D. Gastrointestinal complications
- E. Nutritional complications
- F. Hepatorenal complications
- G. Neurologic complications
- H. Genitourinary complications
- I. Endocrine complications
- J. Cardiopulmonary complications
- K. Dermatologic complications
- L. Dental complications
- M. Ocular complications
- N. Musculoskeletal complications
- O. Psychosocial complications

BMTCN® Certification Review Manual

Are you preparing to take the blood and marrow transplant certified nursing exam? The *BMTCN® Certification Review Manual* is an essential resource for specialized knowledge through certification. Chapters are based on the exam content and cover eight major subject areas:

- Basic concepts and indications for transplantation
- Types of transplants and sources of stem cells
- Pretransplant care
- Preparative regimens and stem cell infusion
- Prevention and management of graft-versus-host disease
- Post-transplant issues
- Survivorship issues
- Professional practice

Each chapter includes a series of multiple-choice study questions similar to those found on the Oncology Certification Corporation BMTCN® examination. As

Training

JACIE offers different training formats:

- **Training Course** - a course to prepare transplantation experts to perform JACIE inspections. More details on the requirements to be an Inspector are available [here](#). Additionally, where possible the event is open to anyone who needs to learn more about the Standards and accreditation process.
- **JACIE Day** - this is an open format primarily based around an overview of the Standards, the accreditation process and sharing the experience of centres that have achieved accreditation. It can be tailored to meet the needs of a wider congress programme and is often organised by national societies or groups. If you are interested, please contact jacie@ebmt.org.
- **EBMT Annual Congress** - the congress features a dedicated JACIE session and the wider Quality Management Meeting with a variety of topics. More information is available from the [EBMT Congress web site](#).

Events are also listed on the Calendar at www.jacie.org/events.

If you are interested in specific training or preparation, please contact jacie@ebmt.org.

FACT EDUCATIONAL OPPORTUNITIES

FACT's comprehensive, robust training and development program is responsive to the current needs of inspectors and organizations, providing extensive opportunities for all skill levels in all corners of the world. With a focus on real-life examples and practical application, FACT educational sessions provide tools not only for achieving accreditation, but for ensuring quality patient care in accordance with the Standards.

The FACT Training and Development Program is a multi-faceted program that provides a variety of educational tools, resources, and opportunities. It is designed to reach the entire inspectorate as well as a large base of cellular therapy programs and cord blood banks on a continuous basis. The Training and Development Program has and will continue to improve and evolve over time based upon current issues, needs, and outcomes.

Training Workshops

Training workshops are designed to inform and update current and prospective inspectors on inspection requirements and explain the FACT accreditation requirements to cellular therapy program and cord blood bank personnel.

Online Training

Webinars

Webinars provide focused, interactive seminars that provide opportunities for advanced training and education for individuals and programs well-versed in general FACT requirements.
