10 centers

Total number of transplants in your centers in 2013:

449

Number of transplants by category in your country 2013

- Re-transplants **3**
- Unrelated donor transplants ----
- Related donor transplants **243**
- Autologous transplants **200**
- Cord blood transplants **3**

Indications (diseases) – please list:

Indications (diseases)

Benign hematology:

Severe Aplastic Anemia

Pure Red Cell Aplasia

Amegakaryocytic Thrombocytopenia

Diamond - Blackfan Syndrome

Dyskeratosis Congenita

Congenital Dyserythropoietic Anemia (CDA)

Fanconi Syndrome

B-Thalassemia Major

Sickle Cell Anemia

Paroxysmal nocturnal hemoglobinuria (PNH)

Sideroblastic anemia

Malignant Hematology:

Acute Myeloid Leukemia (AML)

Acute Lymphoblastic Leukemia (ALL)

Chronic Myelogenous Leukemia (CML)

Multiple Myeloma (MM)

Non- Hodgkin Lymphoma (NHL)

Hodgkin Lymphoma (HL)

Burkitt's lymphoma

Mantle cell lymphoma

Chronic Lymphocytic Leukemia (CLL)

Idiopathic Myelofibrosis (IM)

Juvenile Myelo-Monocytic Leukemia (JMML)

Chronic Myelo-Monocytic Leukemia (CMML)

Myelodysplastic Syndrome (MDS)

Indications (diseases), continued..

Miscellaneous:

Neuroblastoma

Germ Cell Tumor

Breast cancer

Ewing's Sarcoma

Retinoblastoma

Wilm's tumor

RMS

Niemann–Pick disease

Chronic Granulomatous Disease

Osteopetrosis

Adreno-Leukodystrophy

Leucocyte Adhesion Disease (LAD)

Severe Combined Immune Deficiency

T cell Deficiency

HLH

Chediak-Higashi syndrome

Wiskott Aldrich Syndrome

Mucopolysaccharidosis

Griscelli Syndrome

Gaucher Disease

Egypt

What is the biggest barrier to transplantation in your region?

Maintenance of the infrastructure

Do you have a QM System?

No

Do you know the mortality rate in 2013 in %?

Yes

If „yes“, what is it?

12.5 %
