Mary M. Horowitz, MD, MS is the Robert A. Uihlein, Jr. Chair in Hematologic Research, a tenured Professor of Medicine in the Division of Hematology and Oncology and Deputy Director of the Cancer Center at the Medical College of Wisconsin. For 30 years she served as Chief Scientific Director and is now Scientific Director Emeritus of the Center for International Blood and Marrow Transplant Research (CIBMTR), a research affiliation of the Medical College of Wisconsin (MCW) and Be The Match/National Marrow Donor Program. The CIBMTR maintains a large, longitudinal clinical database of BMT and cell therapy recipients and coordinates a multifaceted research program doing outcomes, late effects, quality of life, health services and statistical methodology research, correlative studies using its large research repository of donor and recipient specimens, and prospective phase I, II and III clinical trials. Dr. Horowitz is also Principal Investigator of the Data and Coordinating Center of the Blood and Marrow Transplant Clinical Trials Network, a US National Institutes of Health (NIH) funded group that conducts multicenter clinical trials across North America. Dr. Horowitz received her MD and an MS degree in biostatistics from MCW where she has conducted clinical research in HCT since 1985. She has received numerous honors for her work including the 2008 German DKMS Mechtild Harf for advancing unrelated donor transplantation, the 2010 American Society of Hematology Mentor Award for Clinical Science for supporting the training and career development of young investigators, the 2014 American Society of Transplantation and Cellular Therapy's (ASTCT's) Lifetime Achievement Award, the 2019 American College of Physicians (ACP) Harriet P. Dustan award for outstanding science related to medicine and the 2019 Aplastic Anemia and Myelodysplastic Syndrome Foundation's Lifetime Achievement in Science Award. She is a founding member of the Worldwide Network for BMT, a founding member and fellow of the ASTCT and a Master of the ACP. Dr. Horowitz has served on numerous NIH review and advisory committees and has been continuously funded by the NIH since 1991. She has co-authored more than 400 peer-reviewed publications.
